PROFESSIONAL SUMMARY

Computer Science Engineering student (CGPA: 8.76) at Panimalar Engineering College with hands-on experience in full-stack web development, Android application development, and AI/ML systems. Completed three industry internships covering Java-based web technologies, prompt engineering, and mobile UI development. Solved 200+ problems on LeetCode with demonstrated proficiency in Java, JavaScript, SQL, and RESTful API integration. Seeking a software engineer role to contribute to scalable application development and enterprise solutions.

TECHNICAL SKILLS

- **Languages:** Java (Core Java, Java 8), JavaScript (ES6+), Python, C, SQL
- **Frontend:** HTML5, CSS3, Bootstrap, React, jQuery, JSP (Java Server Pages), Jetpack Compose
- **Backend & DB:** PHP, JDBC, MySQL, SQL Server, MongoDB, Firebase
- **Frameworks & Tools:** Angular (Basic), Entity Framework (Basic), Git, GitHub, Android Studio, VS Code, IntelliJ IDEA
- **AI / ML:** Prompt Engineering, ChatGPT API, Gemini API, AI Content Generation, Machine Learning
- **Other:** RESTful API Integration, Responsive Design, Authentication, Agile Collaboration

EXPERIENCE

Android App Development Intern | Internshala | 2025 – Semester V

- Built functional Android applications using Kotlin and Jetpack Compose, delivering responsive, Material Design-compliant UIs.
- Implemented navigation components and state management patterns, reducing UI-related bugs by improving component reusability.
- Technologies: Kotlin, Jetpack Compose, Android Studio

Prompt Engineering Intern | MetaVerse | 2024 – Semester IV

- Engineered and optimized prompts for chatbot workflows and AI content generation pipelines using ChatGPT and Gemini APIs.
- Produced AI-generated content assets for 5+ client campaigns, improving output relevance through iterative prompt refinement.
- Technologies: ChatGPT, Gemini, Prompt Engineering, AI Image Generation

Full Stack Developer Intern | Infomatronics | 2024 – Semester III

- Developed a responsive multi-user booking web application featuring admin dashboards, user authentication, and database-backed CRUD operations.
- Integrated MongoDB with a PHP backend to support dynamic data management, cutting manual data entry effort for admin staff.
- Technologies: HTML, CSS, JavaScript, Bootstrap, MongoDB, PHP

PROJECTS

AI Mental Health Analyst | Python, Machine Learning, Web Development

- Built an ML model to detect early mental health risk indicators among students based on behavioral and academic input data.
- Generated personalized study plans with AI-driven recommendations, providing actionable interventions for at-risk users.

TxtMagic | *Python, PyPI*

- Published an open-source Python package on PyPI for terminal text styling, supporting color formatting, animations, and custom themes.
- Designed an intuitive API with zero external dependencies, enabling developers to enhance CLI output in under 5 lines of code.

Rythmix – Music Streaming Platform | *Java Spring Boot, React, PostgreSQL, OAuth 2.0, JWT, SMTP*

- Built a full-stack Spotify-inspired music streaming application using Spring Boot REST APIs, React.js frontend, and PostgreSQL with Spring Data JPA and Hibernate ORM.
- Implemented OAuth 2.0 social login, JWT-based stateless authentication, and SMTP email verification via JavaMailSender for secure, verified user access.
- Designed relational data models for playlists, favorites, and artist browsing features, optimizing query performance with Hibernate ORM mappings.
- *Technologies: Java 17, Spring Boot 3, Spring Security, Spring Data JPA, PostgreSQL, React.js, JWT, OAuth 2.0, SMTP, Maven, REST API*

EDUCATION

B.E. – Computer Science Engineering | Panimalar Engineering College | 2023 – 2027 | CGPA: 8.76

HSC (Class XII) | KKS Mani Matric Hr Sec School | 2022 – 2023 | 89%

SSLC (Class X) | KKS Mani Matric Hr Sec School | 2020 – 2021

CERTIFICATIONS

- **Joy of Computing Using Python** – NPTEL (Elite)
- **Introduction to Machine Learning** – NPTEL
- **Introduction to Data Science** – Infosys Springboard
- **Android App Development** – Internshala
- **GenAI Powered Data Analytics** – Forage
- **Introduction to Cybersecurity** – NASSCOM
